1 Introduction

1.1 Purpose

BBP is a software designed to simplify the life of everyone who goes on bike trips and wants to enjoy them without worrying about finding the best routes.

It is intended as a community for cyclists, in which every person can share information about their personal routes, so that everyone may take advantage of the information and experience of other bikers. The application is intended for smartphone, where it can make use of GPS and sensor data to seamlessly reconstruct the path a cyclist has taken.

1.2 Scope

Acronym	Definition
BBP	Best Bike Paths application
GPS	Global Positioning System
UI	User Interface
SP	Shared Phenomenon
WP	World Phenomenon
UC	Use Case
DA	Domain Assumption
G	Goal
